VOLUME 35 | FRIDAY OCTOBER 9th. 1942. | NUMBER 24

A. H. Zabriskie Passes Following Operation

Arnold H. Zabriskie, 44, a resident of Raymond since 1925 when the Utah-Idaho Sugar Co. erected their factory in Raymond, passed away Sunday evening about 9:30 in the University Hospital at Edmonton, after gradually sinking since Saturday evening when he took a turn for the worse.

He was operated on Monday of last week for what diagnosis had revealed was a small tumor on the brain. Despite the fact that the operation lasted six hours, he came through it in good condition and came thru the critical period following it, weakened, but apparently with a very good chance of recovery. Frank R. Taylor, who went to Edmonton Sunday of last week to be present at the operation, returned home Wednesday afternoon and Thursday morning was quite optimistic over Arnold's condition. Thursday night he was called back to Edmonton and remained until the end came. Word came Sunday morning that his condition was not so good, and while his passing was a shock to all it was not entirely unexpected.

Deceased leaves to mourn his passing his wife, who is a sister of Mrs. Frank Taylor, and four children Virginia, Billie, Joanne and Richard. The sympathy of the entire community is extended to the sorrowing wife and children, and also members of the Zabriskie family in Utah in their sorrow.

Arnold has been active in community affairs ever since taking up residence here. He was shipping clerk for a number of years, was then book keeper, and when H. F. Hodges returned to Blackfoot, Ida., when the Rogers interests bought out the Utah-Idaho, was made chief accountant and since then had been in charge of all the office staff of the Company where his executive ability had been well manifested in the efficiency of his office staff.

In a community way he had served as Past President of the Raymond Rotary Club, was Secretary-Treasurer of the Raymond School Board, President of the Raymond First Ward Y. M. M. I. A. and had been in charge of various functions of the Golf Club of which he was an active and enhusiastic member. He was a lover of nature & the great outdoors and every summer found him fishing in the mountain lakes and streams and nearly every fall he was away on a big game hunt.

Arnold will be missed by a wide circle of friends and business associates, besides the

ST. LOUIS CARDINALS WIN SERIES

St. Louis Cardinals, managed by Billy Southworth and captained by Terry Moore, won the 1942 Baseball crown when they beat the New York Yankees four in a row, after dropping the first one to New York. The first two games were played in Sportsman's Park, St. Louis where each team had a win, then the action shifted to the New York Stadium, home grounds of the Yanks, and here the kids from St. Louis won three in a row from New York to win the crown. In the division of the player' pot from the gate receipts, each Cardinal player received $6,192.50, while each Yankee player recived nothing over $4,000.

OPINION DIFFERS ON EFFECT OF GAS RATION REDUCTION

ALL "A" RATION BOOKS NOT BEING RECALLED A.M.A. STATES

Gasoline service station operators Wednesday, queried as to how much the average motorist's gasoline consumption was likely to be reduced as the result of cutting of the gasoline unit from five to four gallons differed in their opinion as to the immediate effect All felt that the number of A category cards called in to be replaced by AA cards would have greatest bearing on the amount of gasoline used in the next few months and all stated that shortage of tires would eventually make it impossible for most motorists to use the reduced allowance.

Information has been received by the Alberta Motor association that all A gas ration books are not being recalled, that the original applications ually reviewed and in accordfor the same are being individance with the information there in given letters will be sent on and after October 1 to such holders as A gas ration books as in the opinion of the oil controller should be reduced. It is further stated that it is not the present intention of the oil controller to require such holders of A books as use their cars for business purposes to surrender the same and accept AA books.

NEWS NOTES

The whistle on the Cheese Factory sounded Monday when the boiler was steamed up for the first time. The plant hopes to get into operation before very long now.

* * *

Clifford L. Gardner, 29, of Eckville, was instantly killed Sunday when crushed under the wheels of the engine on a C.P.R. freight train just as it was getting up speed on leaving Innisfail.

* * *

Feeder cattle and lambs are being received quite regularly now and are being turned into grain and beet fields to forage while the open fall weather lasts. Feeders are taking on about the usual number for winter feeders and are hoping the prices will remain stabilized until they sell in the spring.

Now Lets Make It Go Big

The Cheese Factory is completed and carpenters and painters are finishing up a few odds and ends this week-end. The egg grading station has been operating since the first of the month on the new location and the cold storage system is ready to be put into immediate operation. Making of cheese is expected to commence about the first of the week. Three minor items of equipment have not been received, but these will not prevent the opening of the Factory, as replacements can be obtained from nearby factories, until these items arrive.

Now, the success of this enterprise rests with the milk producers. The set-up throughout has been described by men who know what they are talking about as one of the finest in Western Canada. The Provincial Dairy Commissioner and other officials are enthusiastic about it, and the local Board, headed by A. W. Jones and E. E. Jensen have done a fine job and have devoted much time to the general supervision of the project Now, Mr. Producer, let's fulfill our pledges and see that the Factory is kept supplied with milk, and that Raymond does her bit to assist in keeping Britain provided with nourishing and appetizing Canadian cheese.

If the premised number of cows are kept in production, there will be no question about the Factory being kept busy. Milk sold to cheese factories provides a handsome return for the producer, and according to statistics and the experience of farmers who have tried both, considerably exceeds the payments for seperated cream. There are quite a number of cows now milking, and every one who has one or two gallons a day to sell, should try and and arrange to see that the Cheese Factory gets it, for the time being at least, until the industry becomes stabilized and the production guaranteed.

The question of milk hauling and costs will no doubt require some study and some work, but in view of the need for cheese, and the backing of both Dominion and Provincial governments in the venture, it is not expecting too much to hope that co-operation will be received from officials in getting vehicles to take care of the transportation of the milk. Co-operation, a spirit of optimism in the venture, and a determination to make it succeed is all that is needed now to put Raymond on the map as a dairy centre. We have every advantage in the way of feeds, location and so on. NOW let's take opportunity by the forelock and really make this fine large building, in which we all take pride, really go places and do things in the production of cheese and eggs, and the conservation of more and finer foods. In doing this we are really assisting the war effort, and despite flat feet, bad digestion, distorted vision and many other things that might keep us out of the armed forces, we can hold a pail at the business end of the cows and assist in keeping Britain's cupboards full both for the fighting forces and for the brave souls who make up Britain's populace.

Local Crop Conditions

Harvesting is in full swing and is being prosecuted with all possible vigor. There is a shortage of labor, and this reduces deliveries of beets as well as grain. However every daylight hour and some of the dark ones are being used to get the harvest completed while the good weather lasts. Cloudy weather with cold winds most of last week, made the weather threatening, but no storm came here although hail was reported on the ridge south of town Saturday afternoon while a cold wind blew here.

Grain harvesting is about 50 p.c. completed with the elevators busy as long as the quota lasts. The beets are about 35 p.c. delivered to the Factory, and deliveries are increasing daily, although the volume does no compare with deliveries of former years because of the shortage of help, which in the case of beets is a great drawback as the crop has to be pulled and topped, each beet being handled separately and by hand in these operations. No estimate can be made on tonnage, but judging by the size of the roots the average tons per acre this year will be less than last year, although with the added acreage the total tonnage over the district may be greater. Sugar content is above last year.

The local factory is having a pretty good run and is slicing around thirteen hundred and fifty tons per day. This average is not as large as previous years, but considering the toughness of the beet roots, presumably due to the excessive moisture, is a good average. Orders for sugar are still pouring in and all the make is being shipped as fast as it can be bagged and loaded on the cars. There is a labor shortage at the Factory and some of the crews are not getting any free days, but there are enough hands to keep the mill running smoothly and efficiently.

NEWS NOTES

J.U. Allred, of Logan Utah, is here for a few days on business and renewing acquaintances. He says Utah is just as busy as Raymond.

* * *

The front of the new Cheese Factory was painted white this week, and a sign will decorate the upper part of this as soon as the painters can get the work done. It won't be long now until local cheese will be on the market.

* * *

Despite some wind and changeable temperatures the past week has been a good one for harvest and work has been pushed with all possible speed. Tuesday was a really hot day for this season of the year, the mercury soaring to 82.7 during the afternoon.

Interesting Demonstration On Cold Storage

CUT HOLIDAYS DOWN TO SIX

GOVERNMENT ORDER DROPS VICTORIA DAY. MOVES DOMINION DAY

Ottawa—By order in council, the Federalgovernment declared that only six statutory holidays should be observed by employers and employees for the duration of the war, apart from Sundays or weekly days of rest apart from Sunday.

The government order set forth the following as statutory holidays:

New Year's Day, Good Friday, the first Monday in July (in lieu of July 1), Labor Day, Thanksgiving Day and Christmas Day

In his announcement of the order, Labor Minister Mitchell said that in the interests of the war effort and to promote uniformity among employers & employees in the observance of statutory holidays throughout the Dominion, "the government has found it expedient to declare its policy in the matter."

The order is designed "to remove the present uncertainty as to whether employees should or should not be required to work on each such holiday."

While the order provides that only the statutory holidays provided for should be observed duing the war, it also sets forth that "reasonable opportunity should continue to be allowed to employees for the performmance of their religious duties."

NEWS NOTES

Mrs. Cleo Bytheway is visiting with her mother Mrs. W. Zemp and family. Cleo lives in Spanish Fork, Utah.

* * *

Alex Smith, who purchased the old Jeffrey home, has remodelled the back part of it with a couple of rooms. Scarcity of shingles forced him to use rubberoid on the roof.

* * *

Prairie farm income of the 3 Western provinces is down $33,600,000 for 1941 compared to the figures for 1940 according to statistics released by Ottawa. Smaller sales of wheat is blamed for the shrink. The cash from the 1941-42 crop is estimated at $379,500,000.

* * *

Jack Freisen of Macleod, 48, was killed Monday morning when the Lethbridge-Calgary passenger train plowed into his Ford Sedan at a level crossing just out of Macleod. He was returning home from taking his children to school when the accident occured. He was driving into the sun and did not see the train which whistled three times. An investigation is underway.

* * *

Mrs. Nell Huff of Vegreville was found dead in an outhouse on there farm, death being caused from a stray bullet from a .22 calibre rifle which struck her in the eye. Elton Morton, 16, told police that he had been at the Huff home, and before leaving to shoot gophers had fired his .22 at the door of the building, and it is believed this is the bullet that caused the tragedy. Police are investigating the case

Despite short notice, (information only being received Thursday afternon), and a very busy season, about fifty ladies gathered in the 2nd Ward Recreation Hall Friday afternoon to listen to the lecture and demonstration by the ladies representing the Bruce Robinson Electric, who were here to acquaint the ladies of the district with the use and convenience of cold storage lockers.

The ladies brought a large variety of frozen foods with them, and along with the talks actually showed those present what could be done and how to do it. Samples of the foods were passed to the ones present and all who tasted the dishes were unanimous in their opinion that cold storage opened up a new field in the preparation and conservation of fine foods. Following the demonstration most of those present visited the new Cheese Factory, just about ready to open, where the Cold Storage Locker unit is housed and were delighted with what they found there.

Plan Now to attend the Preview Sunda Nite at 12:10 Bing Crosby in "Holiday Inn".

Y. T. SHORTS

The Youth Training classes got underway last Thursday evening and the same crowd was back again on Monday. The class members decided that Monday and Thursday evenings were the most convenient time so the future classes will be on these nights; girls at 7 p.m. and the men at 8 p.m. Oh! the place is the high school gymn. "The place with the newly installed showers."

The men's class have taken quite a liking to indoor heckey. Bill Hansen's dazzling speed and Warren Jones' sturdy defence and Rowan's crashing plays were the features of the game. Bill is developing an in-curve shot that is baffling. However, we're not saying anything about the mixup that occurred the night the girls decided to stay and see what the men did during their classes. It didn't take them long to all get turned the right direction and going the same way.

The girls are turning out well and they are really a live wire class. You should see how they take to the folk dancing. Learned two dances the first night. Expect to have some star performers before the end of the season. The "aeroplane ride" provided the thrills for the Monday's class, especially for Katheine. She thought a bomb had struck and turned the school around. We missed Verda for the folk dancing, cause she can show us around when it comes to activities of this kind. Orpha just about won the Volley ball game when she scored eleven points before Velma returned a fast one they couldn't handle. Final score was 15 to 13.

Classes are open to anyone 16 years or over. They are Free They are Fun. And they are Healthful. You can register the first time you come and then you can come when you like, as often as you like, or can leave when you like.

Monday being a holiday there will be no classes held that night.

PAYING DEBTS

With one of the largest crops in Canada's history being harvested, total farm income of the Dominion will take a very considerable upward swing within the next 12 months. There will be difficulty meeting harvesting costs until the crop begins to move, it is true, but in the long run the farmers are going to have more money.

The same is true in the United States, and there President Roosevelt has joined in the suggestion that farmers should use their increased income to pay off some of their debts. In a letter from the President to Agriculture Secretary Wickard, the President gave his reasons.

"Those who take this advice will be contributing in a real way to the accomplishment of three important objectives. First, by making such payments they will reduce farm mortgage debt which might otherwise be burdensome in the readjustment period after the war. Second, use of increased purchasing power to pay debts instead of buying such things as we all can reasonably do without during the war will help keep the prices of such things from rising. Farmers, like all citizens of the nation fear inflation. Third, repayments to creditors will enable them to by more war bonds, thereby contributing materially to the war effort.

"I cannot emphasize too strongly the need for continuation of this constructive policy by the Farm Credit Administration and its co-operative borrowers."

Those are mighty good reasons for paying farm debts and they apply equally in Canada as in the United States. A clean slate now will help the much more easily when the

OUR NEW MODERN PREMISES

AIR-CONDITIONED for YOUR HEALTH and COMFORT

This modern building now being erected will contain ten thousand square feet of floor space and will be fully air-conditioned to protect the health of the student. This means there are no variations of temperature--no open windows to cause draught and resulting colds. Fresh air will be brought from outside of the building, and filtered and heated under thermostatic control. This pure air is uniformly distributed to every part of the college premises, a complete change taking place every fifteen minutes. This will be the second business college in Canada to be fully air-conditioned, the other one being in Winnipeg.

GARBUTT

British Seaman With Tommy Gun Covers Destroyer Boarding Practice

Pulling up alongside a tanker a British destroyer took the opportunity of giving the crew boarding practice. On the order "away boarders" the British seamen, fully armed, leapt aboard the oiler while a comrade [illegible] gave cover with his tommy-gun.

Picture shows: Tough-looking seaman behind his Tommy covering the boarding party's advance.

MAIL CHRISTMAS PARCELS NOW TO FORCES OVERSEAS

Santa Claus must get off to an early start if our Armed Forces overseas are to get their Christmas boxes on time. Though that holiday seems far in the distance, TODAY is not too soon to start Christmas overseas mailings. The Postmaster General, Honourable William P. Mulock, advises that gifts should be sent now and during October —the earlier the better —to ensure timely delivery. November 10th is the very latest date that parcels may be mailed if they are expected to arrive in time for Christmas. However patrons are urged not to defer mailing until the very latest possible date but to Mail Early and prevent congestion, and give the Postal authorities opportunity to arrange for carbo space aboard ocean vessels A great influx of mail reaching the Base Post Office around, or after the deadline set would result in delivery being delayed, for not only would it accentuate the problem of handling, but of finding sufficient storage space aboard ship because only a limited spaee is allotted the Post Office in view of the urgent requirements for forwarding munitions and other war supplies.

To further facilitate the problem of providing adequate shipping-saee for the Christmas mails to the Forces, it is suggested, that although the maximum weight of a parcel at reduced rate is set at eleven lbs. senders should voluntarily cut down as far as possible on the weight and size of their Xmas packages. If they do so they will help make more accommodation available for other parcels on the same ship and give the Post Office the chance to make deliveries in time for all. There is the most vital need of co-operation by the public for this year the Post Office expects an all time record in the overseas volume of military mails will be established and is already preparing in every way possibe to handle and expedite the influx

Greater care than ever before is necessary on the part of mailers, in the preparation of their overseas parcels, in order to avoid delay.

Address all mails IN INK, fully, clearly and without misleading abbreviations. Be sure to place return address on cover—also include a slip in the parcel bearing sender's address as well as address of parcel. Prepay all mail correctly.

Parcels should be packed eompaetly enough to resist the pressure of other mails in the sack and the handling in transit. Use strong corrugated containers, not light cardboard boxes. wrap in several layers of thick wrapping paper, & tie securely with strong cord. Do not use Xmas tissue paper for wrapper, or coloured ribbons to tie. Parcels may be sewn in strong cotton or similar fabric.

Jams, syrups and any other substance likely to leak and spread, if sent at all, must be enclosed in sealed containers (not glass bottles), surrounded with absorbent materials in corrugated cardboard, and securely wrapped and tied. A completed Customs Declaration for should accompany every parcel. Apples, grapes, etc., or any article likely to spoil or become damaged, or to injure Postal personnel or the mails are not acceptable. The mailing of Matches, Safety Matches and Lighter fluid or any other inflammable substance is strictly prohibited by law.

Citizens, by refraining from writing to our Forces overseas that gifts are being sent, until actually mailed, can save much disappointment. Do not disappoint our men by mailing their gifts too late for Xmas delivery.

The Recorder

Wednesday's Herald contained a recent picture of William and DeWilton Card, brothers 80 and 75 years of age, who are doing their share for Victory. William, father of S. B. and Grant is driving a binder to assist with the harvest, and D. W. in Cardston is doing construction work.

• • •

You go to the stores today and ask for what you want then you go home with what you can get. This is, as will be the case in foods, hardware, clothing and furniture. Rationing, quotas of raw materials and so on, is beginning to be felt now in the retail trade as surplus stocks are being sold out and replacements unobtainable. There is definitely no hardship, but it seems queer after years of getting what you want to find staple lines limited in variety, and some articles discontinued altogether.

PEACE—
will come again

When victory has been won, peace will come to this war-torn world again.

The time may not be far away when our farms and industries will once more be producing for the good of humanity instead of its destruction.

And the peace, as our leaders have pledged, will be one that is just to all. So let us keep heart as we shoulder the burdens of the war effort. Let us renew our faith . . . for peace will come again.

In Peace or War we are always ready to Serve You

ANOTHER BOY SCOUT HERO

Recent announcement of medal awards for British Scouts includes the Cornwell Decoration for Scout Jimmy Cluff of the 30th Stepney Troop, London who lost a leg and suffered injures while on duty during a Nazi air raid. The Cornwell, Decoration perpetuates the memory of Scout Jack Cornwell V.C., who lost his life in the battle of Jutland, of the first Great War.

Geo. H. Brewerton who was operated on two weeks ago for acute appendicitis is home now and is recovering nicely. We wish him a speedy and complete recovery.

A. H. ZABRISKIE PASSES FOLLOWING OPERATION

auditors and executives of the Rogers Co. In his fishing, hunting, and golfing he had made a host of friends and in his activities in the Rotay Club he had become acquainted with Rotarians from the head of the Great Lakes to the Rocky Mountains having attended several District Conventions.

FUNERAL SERVICES

Funeral servies were held in the First Ward Chapel at 2 p. m. Thursday with C. R. Wing of the First Ward Bishopric in charge The 1st Ward Choir directed by Ira McBride furnished the singing, the following program being carried out:

Opening song "Tho Deepning Trials" with prayer by Patriarch O. H. Snow, the second song being "We Lay Thee Soft-Down to Rest."

C. R. Wing made a few opening remarks and voiced his appreciation of his association with deceased over many years and offered his sympathy to the sorrowing wife, children and relatives.

A vocal solo "I Love Life" by Ira McBride.

Dr. J. S Madill spoke briefly and feelingly of his intimate friendship and association with deceased during his residence in Raymond and felt that he had indeed lost a true and valued friend

Elder Heber F. Allen spoke of his association with deceased in business and also in church activities. stating that Arnold was always willing to accept responsibility and do his full share and that he was dependable in every way. He extended his sympathy to the family and spoke of the promises of the resurrection and eternal life which would enable them to carry on as a family unit and finish there what they had commenced and planned here.

"Oh My Father" was played as an organ solo by Roi Stone. Ward Organist.

Elder T. Geo. Wood Stake President and District Manager of Canadian Sugar Factories Ltd. was the concluding speaker and paid a fine tribute on be half of the Company for efficiency and integrity of deceased in his work, stating that his detailed work was always orderly and up-to-date. He gave a beautiful sermon on the L.D.S. doctrine of the Resurrection and said that while the parting was always sad, the assurance of life after death and the eternity of the family relationship made the parting much easier to bear. He extended his sympathy to the sorrowing wife and children and other relatives in their great loss.

"Goin Home" was sung by Jos. McLean and the closing prayer was offered by Lee Brewerton.

A large cortege followed the remains to the cemetery where interment was made, the grave being dedicated by H. Myron Holmes, chairman of the School Bard.

The service was largely attended, people dropping their work, despite the busy season to pay their respects to deceased, Mrs. Maureen Taylor, a sister and Mrs. Josephine Goodrich, mother of Mrs. Zabriskie and Mrs. Emma McKenzie, a sister of Arnold and all three from Provo, were present, and F. H. Ballou and Geo. Pierson of the B.C. Sugar Refining Co. and H. Rhodes of Donald Bain, were present representing their companies

Pall bearers were: C. D. Nalder, J. L. Allen, S. C. N. Grey, L. D. Watson. F.H. Turner. L. A Wood and R. S. O'Brien, all associated with deceased in the office. E. H. Wagstaff representing the Vets, W. L. Jones the Rotary Club and Gerald Gibb of the School Board.

There was a great profusion of beautiful flowers from organizations and friends, silent tributes to the deceased and his wife and family.

The sympathy of the entire community is extended to the sorrwing wife, children and relatives in their bereavement.

Mrs. Nancy Alexander of Spanish Fork, Utah, sister of Grandma Scoville is visiting here for a month with relatives and friends.

Royal Visit To Canadian Troops In Britain

When the King and Queen paid a visit to Canadian troops stationed in England, they were shown many kinds of up to date equipment, including modern guns, and rode in one of the latest types of Bren Gun carr-

Picture shows: The Queen exchanging a friendly word with one of the Canadian soldiers during the royal inspection of the visit.
